

# HLTAID003 Provide First Aid

## Course Delivery

The course is delivered via our web-based on-line learning in conjunction with face-to-face training sessions in the field, a flexible blended learning environment.

The course content focuses on key skills that develop your knowledge for application of these skills and should be contextualised as required to address specific industry, enterprise or workplace requirements and to address specific risks and hazards and associated injuries

The face-to-face training and assessment is conducted in various locations throughout Australia and is based upon demand.

The activity calendar is regularly updated, (every 3 months) to reflect current enrolments. The calendar is on-line allowing students to view and select their own training/ assessment sessions within their course time frame.

## Course Overview

This First Aid Course deals with the skills and knowledge required to Provide First Aid response, life support, management of casualty (s), the incident and other first aiders, until the arrival of medical or other assistance. These skills and knowledge may be applied in a range of situations including community, school and workplace settings
